International Poster Size Chart

Here is an International Poster Size Chart to help you quickly identify a poster. There are several things to keep in mind when trying to use this chart.

- A. The chart is in approximate centimeters and inches.
- B. Some sizes are utilized by multiple countries. Once you look at a country, look for other identifying marks to verify the poster. i.e., ratings codes, distributors, studio logos, printers marks, etc.
- C. The sizes listed below are width first, then height.

Country Domain Extensions

On newer posters, it's quite common for the studio to also have a website for more information about the film. The country domain extension can sometimes help identify what country has issued the poster. We have compiled this list as another tool to help you with that identification.

Country Identification - Director/Directed By

We have been trying to create a way to help our sponsors and members tell what country a particular poster is from. To do this we have to compare a piece of information that is consistent on posters from all countries. One major piece of information that is on most posters is the director.

While you can't tell what country a particular poster is being issued by the director, you can tell by the way that country prints the word 'director' or the phrase 'directed by'. So we want to present how different major countries print the words meaning 'director' to help you identify the country.

Here is our list:

Country	Director
Argentina (Spanish)	Direccion Dirigio dirigida por
Brazil (Portugese)	direcao
Czechoslovakia	Czech Republic - rezie Slovak Republic - rezia
Denmark	Instructor Instruction Iscenesaettelse iscenesat af
Germany	regie
France	un film derealise par
Italy	diretto da regia regia di un film di
all Spanish countries	direccion
Poland	Rezyseria rez
Sweden	regi
Turkey	Rejisor yonetmen
Yugoslavia	rezija
