## ORIGINAL VINTAGE COLLECTIBLES

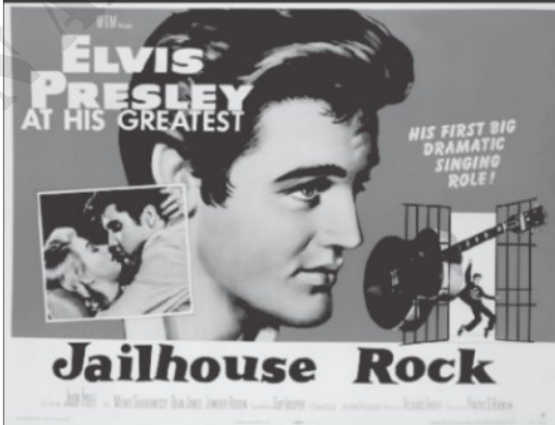

Who's your favorite? Everyone has one...a favorite movie star or movie...that favorite film moment when we hear a line that captures our imagination and stays with us forever. Welcome to America's largest gallery of museum conservation framed, original, vintage, collectible movie posters and stills from the 1920's to the 1990's. Many of these are extremely rare. Bring your special memory to life and own a valuable piece of film history.

# Learn About Movie Posters.com

FILM preservation was first introduced by Will Hayes in 1926. Since that time, film preservation groups, societies and organizations have literally spent BILLIONS of dollars locating, retrieving and restoring films. BUT with all the time, effort and money, **80%.... YES EIGHTY PERCENT....** of the silent films produced in the United States have been lost **FOREVER!!!**

Having the film is wonderful, but when there is no film available, the NEXT most important documentation would be the accessories - i.e. posters; stills; pressbooks, etc. Do you know how many film poster preservation groups, there have been over the past 80+ years to help locate, retrieve and protect this treasure trove of film history? ... **ZERO.**

Considering the BILLIONS of dollars that have been spent by organizations on film preservation, do you know how much money has been allocated in a similar fashion to preserve the film accessories? ... **ZERO.**

With the gross neglect by our archival community, what are the odds that the next generation will have ANY significant amount of film accessories preserved? ... **ZERO.**

## Something Has to be Done!

Learn About Movie Posters was started in 2001 with the objective of researching, documenting, compiling and presenting as much information as possible on film posters and associated areas from around the world. **LearnAboutMoviePosters.com** (called **LAMP**) has become the largest reference site on the internet, with over 200,000 pages of reference and over 80,000 posters fully cross referenced and searchable.

Here are some of our accomplishments since we started:

- **divided posters into 26 different poster types.**
- **sorted film titles into 61 different genres.**
- **tracked posters from 118 countries**
- **tracked 125 different posters sizes**
- **documented over 800 movie poster printers**
- **tracked 1074 film studios**
- **documented over 4,000 poster artists**
- **documented over 9,000 reissues.**
- **tracked 28,652 directors and writers in the archive.**
- **posted 80, 446 poster images online**
- **listed 189,132 film titles**

## Our Dealers and Suppliers

To support our project, we allow reputable dealers and suppliers to attach to our archive and throughout the website. This gives everyone access to the most reputable framers, suppliers, auction houses, services and restorers in the industry. Our dealers have over 50,000 posters **FOR SALE** on LAMP, making LAMP the largest single location of posters for sale on the internet.

**Take a little time - bring a BIG cup of coffee - and come Learn About Movie Posters**

# LAMP Membership

In 2007, with the basic website foundation and archive built, we began to address another major problem area. This was to build a special place for those individuals and organizations that needed more specifically detailed and advanced research.

Since the creation of our new Member Program, here are some of our accomplishments:

- **expanded member areas on 22 countries**
- **expanded film industry histories on 28 countries**
- **country identification charts for international posters**
- **Belgian tax stamp charts for post-war dating**
- **Dutch Filmkeuring charts**
- **French Visa de Censure chart to help reissue identification**
- **French printer charts for reissue identification**
- **Japanese Eiren charts for dating**
- **Poster artist signature charts**
- **Legality research for US material**
- **Section for lawsuits concerning posters**
- **over 3000 silent studios documented**
- **over 15,000 NSS trailer numbers documented**
- **over 25,000 production codes for unknown stills**
- **over 30,000 NSS poster numbers documented**
- **foundation for restoration documentation**

This research has allowed us to compile and present an information base to the industry that has never been available before. From this information base, we have now released **nine** reference books to help in previously undocumented areas. Our research has also been catching the attention of many high level institutions and drawing more attention to the industry.

With the new Advanced Research framework in place, we are now constantly adding and cross-referencing more advanced information to both fill in the holes of documented history AND create new tools to help researchers with comparisons and documentation.

If you need more ADVANCED research for your work, your project or your hobby, OR if you just want to support a hard working organization trying to preserve this information for the future, come take a look at our membership program. We have a variety of membership programs starting with individual memberships for only \$60 per year, along with business and library memberships.

You can call at (504-355-2130) or email ([edp@LearnAboutMoviePosters.com](mailto:edp@LearnAboutMoviePosters.com)) and I'll be glad to show you how everything works and the behind-the-scenes projects that we're working on. We are very proud of what we have accomplished since 2001, but we know that it is a small drop of what NEEDS to be preserved before it disappears forever.

Our goal is: ***A little bigger, a little better each day; preserving the past for the future.***

**Come join us!**

TX Auctioneer licenses: Samuel Foose 11727; Robert Korver 13754; Andrea Voss 16406. This auction is subject to a 19.5% buyer's premium.

When it comes to researching the film industry as a whole, very little can be done without looking at National Screen Service. The control number system that they established to handle such a massive amount of material is a tremendous resource for any movie poster collector, dealer or researcher. This book is the first and only comprehensive compilation of the NSS numbers ever released.
